OUR NEW YORK LETTER

[FROM OUR REGULAR CORRESPONDENT]

NEW YORK, October 11, 1867

THE P R AND ITS GLORIES

"Veni! Vidi! Vici!!!—I have been to it! I have seen the thing! I came off skinned!"—Such were the words of a Web-foot friend as he returned from witnessing one of the regular mills of the P R We had looked upon a prize yacht a prize yoke of fat oxen a prize sewing machine a prize locomotive, a prize farm, a Havana Lottery prize a prize pig, a prize piano, the first prize in a "Gift Concert" swindle a prize baby and the prize ballet dancers in "Black Crook" and "The Devil's Auction," but we had never seen two poelers pound themselves to a jelly in a "Prize Fight"—the nearest we ever came to it, was when a boy, we saw a prize chicken fight or a prize dog fight So we took the advice of a friend, embraced the earliest chance to witness a modern exhibition of "the manly art of self defence"—to look upon two champions celebrated for muscle and the dexterous use of the "merry fives" The "best family papers" are filled with long and interesting accounts of "feather weights," "light weights," "middle weights," "heavy weights" "bull dog weights," their sayings and doings, matches and sponges, et cetera, et cetera, all conveniently divided into short and pithy sentences, classified into chapters and verses, only the chapters are called "mills" and the verses are termed "rounds" We knew, too, that pugnacious pugilism was one of the growing institutions of the nineteenth century, that the mania for prize fighting was in the ascendant, that John Morrissey was the coming man, that John C Heenan (the Benicia Boy) kept an International Bank on Broadway,—but we did not know—(we should have died in glorious ignorance of) what a grand and noble institution is "mug smashing" according to the ordained rules of the P R We passed a night and a morning with the "pugs" They are early birds, sometimes, and he who would be on the ground when the ring is pitched must sleep with one eye open "Professional pugs" managed the matter, by always keeping near at hand a good supply of "eye opener"

Two slashing mills were to come off in one day—Sunday, of course—and as the first and the best was at an hour (4 o clock in the morning) safe from interruptions by the "perlice," and as we decidedly object to having our first festive enjoyment and fistic lesson at mug-smashing, molested by outsiders not invited, we booked for the matutinal mill In order to avoid the police, and a crowd of roughs from "fouling the match" an old tug boat was chartered at twenty cents a head At 12½ o clock, Sunday morning, October 6th, A D 1867, (we are thus particular because when this battle goes into history, we desire that truthfulness of date, no less than of event, shall characterize our chronicles) steamed from Gowanus Bay with a portion of the party on board, passing the graveyard and touching at Jersey Flats for umpires referee and bottle-holders Leaving Hell Gate to the right, we proceeded to the classic grounds of Weehawken Heights Lager and whisky were the favorite beverages on board, and all hands indulged freely Card playing, dice-throwing, and three card monte were the chief amusements of the trip, except a free rough and tumble fight between the two seconds of the two champions They went in on the blood letting, biting and gouging style for two hours and a quarter, until the "champs" squealed

The boat being kept under a low head of steam, so as not to consume more than the allowance—2½ bushels—of coal, we arrived at our destination a little before daybreak. All hands went ashore, with the exception of those of the party who were too drunk, and were kept on board to prevent difficulty at the ring The spot chosen, by a wonderful coincidence, was the identical ground where Alexander Hamilton and Col Burr fought their memorable duel The ring was at once pitched, and the men began peeling and arranging their toilets Just as

> "Night's candles are burnt out, and day
> Stands tiptoe on the misty mountain tops."

(Oh! shade of Shakespeare, forgive the knolling of thy muse with such a pack)—both men were stripped and greeted with rounds of applause by their respective partizans

Hon Patsey Coburn Joe—Champion of America—best known as the "Knickerbocker Chicken" Mister McCool Jones Mikey, (cool as a cucumber) called among business "the Blood tub Pet"

Patsey Coburn is a foundling from Hackensack Swamp, New Jersey, picked up in a cranberry patch one Sunday afternoon in a cold December, by an old maiden aunt who was out strawberrying, while his mother was gone to meeting He was in fine condition, standing seven feet nineteen and a half inches in his stockings, and weighing 402 pounds His whole body, and especially his rump and shins showed knotty aggregations of hard muscles, like a cordwainer's chest He has been victor in several fights beating successively Old Sal Duggin the Siamese twins, Signor Blitz's blind Bobby, and a crippled organ grinder

McCool hails from Limerick, County Fenian, in the island of Formose He is not unknown to fame and among the fancy, having fought "the tiger" in Water street, St. Louis, Hoboken Bill on the ferry boat, and the keeper of the State prison at Sing Sing, and got licked every time His last great mill was with an apple woman in the Bowery where he easily came off second best His weight is forty seven pounds, and he stands, when erect, *four feet ten, or ten feet four* we don't recollect which This is the only item, we regret to add, in which our account is at all doubtful

At 4 44 A M, the chicken shyed his castor into the ring, and Pet soon followed with his brogan In the toss for the corners, Pet won and chose the N E by E side, so the rising sun would shine full in Chicken s peepers A regular storm of high words and curses followed which was drowned by the voice of the referee calling "time" We condense what followed in these few verses

Round 1—The men stepped up to the scratch, shook hands kissed smiled, (how strange it is to smile on such an occasion, and what a smile pugs do smile), and commenced evolutions After a little sparring, Patsey planted a left hander on Mikey's buttock, but got a rib squeezer in return chicken sent a pair of props on Pet's left shin and went to grass Time, 6 60

Round 2—Both went in on the rough Blood Tub led off, but his blow was short Coburn returned a whacking shin roaster hitting McCool about the diaphram, making him squeal Pet clinched in Chicken's hair and went down easy Time, 4 44

Round 3—Mikey came up lively—sent a stunner on Joe s hash trap—but got a stinger on his buttock preserver, knocking him clear off his pins (1st knock down for the chicken) Time 2 40

Round 4—A sluggish match—both men going in groggy,—Patsey closed one of McCole's peepers—got a crasher on his snuff box in turn Mc showed a good point, putting in a slight gash on Coburn s left rump out of which the claret flowed freely (1st blood for the Pet) Time 3 10

Round 5—Chicken clinches Pet around the knees and receives four thundering whacks on the back —weak exchanges —Pet thrown in the centre of the ring —Chicken falls on him Time 0 10

Round 6—Mikey knocked down and lies until Joe takes three drinks with the referee and bottle holders Time 30 09

Round 7—Mikey lifted to the scratch —Patsey comes up groggy with a blue spot over left eye—his right entirely closed,—both cautious —Pet falls back and Chicken jumps on him Time 9 30

Round 8—McCoole comes up with a smile —Coburn s upper lip and right calf look like pieces of raw beef —Mac aims a powerful right harder at Patsey's patch trap —he dodges and takes it in the stem —both go to grass side by side from sheer exhaustion Time 40 50

Round 9—Patsey fresh and except three gashes in the back a deep cut over the left eye, his right ear bit off, his dexter buttock laid bare and both shins barked, not much injured,—McCoole gets in 17 heavy blows on Coburn's snoot, without return —Coburn ditto, —Chicken forces the fight and Pet goes down in the former's corner —Joe's arms tightly clasped around his coat tail,—a vigorous claim of foul by Chicken s second, but referee don t allow it Time 56 6'

Round 10 to 83 —Same as the last each one —in the 83d Pet jumps astride of Chicken s neck, and remains there, while the umpires and bottle holders all take drinks twice round,—Mikey goes to grass—his right peeper in mourning—his left closed Time 1 20

Round 84 *and last* —Coburn leads off heavy on McCoole's sausage chopper,—gets a warmer on his bread basket,—both counter on ribs, buttocks and calves Chicken sends in a plumper at every whack Pet returns sockdolagers, the claret flows in gorgeous streams both parties are like pounded beef steaks they plant terrific blows, Chicken has one leg broken, Pet has three ribs protruding through his sides

A cry of "here they come, the Police" was raised The champions quickly clear the ropes, make for the boat and shove off from the shore The referee and umpire safely bring off the bottle, sponges ropes and rings but have to wade in water up to their arm pits to get on board After the scare was all over—it was a sell—the supposed Police was found to be two farmer's boys coming to see the fight The stakes are divided, and so the great prize contest for the Championship and the Belt of America was declared a draw

For the use of proper pugilistic words we are indebted to the supervision of a Five Point rough, to whom we submitted our manuscript, and as for the undoubted veracity of our report, we might add (if we didn't always stick to truth—sink or swim—live or die) that Bennett's *Herald*, Forney's *Press*, Prentice's *Journal* Tilton's *Independent* and Heenan's *Clipper*, all make up their telegraphic reports of the mill from the advance sheets of our faithful history of the greatest battle of the campaign *Vere la Bone* At the next fight we shan't be there any more We are perfectly satisfied with what we have seen

A TYPE SETTING MACHINE.

The Alden type setting and distributing machine is one of the wonders of human mechanism. For years the associates of the original inventor, Mr Alden, who is now dead have been patiently and diligently at work perfecting unfinished portions of this grand machine, until their labors are crowned with complete success We have seen the working model It will, at same time both set and distribute matter at the rate of *four thousand "ems" per hour* A good days' work for a printer, we believe, is about five thousand "ems" The almost *perfect accuracy* with which this machine operates, may be known from the statement, that in a proof of over seven thousand "ems," only two errors were found. *The distribution of type is entirely automatic*, the machine in this part of the work actually carrying out all its operations with perfect precision and uniform rate of motions, without any guide, notice or regulation from an attendant. All that is required of the workman is to place upon the form such quantity of matter as it is desired to distribute, adjust the belt of the pulley to the motive power, touch a spring, and at once this wonderful little automaton proceeds with its work At same time, setting up type may or may not be going on, just as occasion shall require To do this part of the work of a printing office, any good reader man or woman, boy or girl, having nimble fingers to touch the keys, can rapidly indicate to the machine what letters, words and sentences are wanted, at his bidding it is done; patiently, expeditiously and almost as noiseless as the work of a sewing machine The indicating key board, at which the operator sits, with copy before him, is, in appearance, somewhat like the key board of a very large accordeon with the keys, one for each letter, figure or character used in printing, arranged in rows as thick as little wire stems, capped with buttons or dice, can stand in this key board The movement to indicate any letter is just like operating a telegraph machine or pressing the keys of a cornet a piston. In its curious operations, this machine seems the near est to the human brain of any combination of steel and brass ever made No matter how rapidly or how slowly the operator indicates by pressing the keys, what combination of letters is desired, the machine will work uniformly. By a simple contrivance, too, it will not contain more than a given number of combinations in advance. If more is indicated, it jingles a little bell, *a la Seward*, and throws off all the surplus. Just as a school boy s head cannot be crammed more than full of ideas, or, as in a quart measure one cannot pour more than a given number of kernels of corn, all beyond that will fall over and be wasted. But the machine is always ready to receive and hold new indications, the moment any part of its measure full is worked off Thus an active operator can, in a short time, learn to indicate in one or two minutes, all it can work off in five or ten minutes, and have the remaining time to examine copy, to talk or to move about the office No matter if its work is finished and its till is empty, it still rolls regularly on, but without doing any work of gathering up type. Work or play is all the same to this little machine If it has no indications given, it simply folds its tiny fingers and don't touch a type Press a key, and at once it has a little pair of fingers that travel round the dice, and pick up the very type or letter indicated, repeat a touch of the same key, and it instantly duplicates that type and sets it upright in the stick, exactly in its proper place.

A joint stock company is organized to manufacture these machines They will cost from $2 500 to $5,000, and can easily to the work of eight men Printers at first may be terribly hostile to the introduction of these machines, but whoever remembers the great opposition made to sewing machines will understand how such things work When Elias Howe, Jr, first proposed to turn out machines that could do more sewing than a half dozen tailors or seamstresses It was declared that the thing never could be permitted, they would *ruin* all the tailors, sewing would go naked and starve all over the country Well, the machine went on, until over a half million per annum are sold, and neither tailors or seamstresses have come to starvation or grief by the machines yet. Just so it will be with the craft who work at the "art preservative of all arts"

FAST HORSES.

We have from time to time given the readers of the OREGONIAN items about the speed of horse flesh Dexter has made his wonderful record of a mile trot in two minutes seventeen and a quarter seconds, has been sold to Bonner for $35,000, and retired to fashionable life in Madison Avenue And now comes a "green colt," owned by Commodore Vanderbilt, "Mountain Boy" by name, and in harness, without a skip or a break, trots his half mile in one minute and eight and a half seconds, then to show the crowd that this is no accident, but muscle and wind, he is timed carefully again, Let Tam O'Shanter's mare and broomstick witches clear the track—the colt dashes off another half mile in one minute seven and a quarter seconds Beat that with your Long Tom or your San tam cayuses, if you can!

CONSIDERATIONS ON THE CALIFORNIA ELECTION —The Sacramento *Union* publishes the official result of the California State election and makes the following comments

The total vote for Governor is 92,352, of which 49 905 were given to the Democratic candidates, leaving a Democratic majority of 7,458 The highest vote was cast for State Treasurer—93 390, or 1 038 more than for Governor The Democratic majority for Treasurer was but 2 904 which may be taken as quite a compliment to Pacheco, the present incumbent of that office, though in truth he merited a much more substantial one The total vote of the State at the Presidential election in November 1864, was 105 975 at the Gubernatorial election of 1863 it was 109 162 We have therefore a falling off since 1863 of 14 772, and since 1864 of 12 5 5 We make no comparison with the vote at the special judicial election of 1865, because that was notoriously an apathetic affair and did not call out much more than half the voters The decline of the vote this year is also doubtless wholly owing to apathy and had all voted who are registered we should have over gone the figures of 1863 In San Francisco the vote polled was more than twenty per cent short of the registration In Sacramento twenty five per cent., in San Joaquin nearly twenty per cent, and we think it within safe bounds to assume that the difference in the State at large between the actual votes polled and the names registered was twenty per cent. in favor of the latter This reserve of from fifteen to eighteen thousand votes can confidently be relied on by the Republican party at the next Presidential election It will with proper management and organization, enable us to sweep the State by twelve to fifteen thousand majority

LATE EASTERN NEWS

NEW YORK, Oct. 19 —It is true that the Democrats have sent for McClellan to return to this country, and will nominate him for President, with another ex military man for Vice President

One of the important features of the Treasury investigation by the Retrenchment Committee, will be that of looking into the alleged over issue of fractional currency There has been a large excess over the legitimate issue of the currency or else thousands of dollars of counterfeit stuff are in circulation.

BALTIMORE, Oct 16 —The case of Elizabeth Turner, held by certain indentures of apprenticeship by Ph[illegible] Tharbleton had a hearing here yesterday in the U S. Circuit Court, before Chief Justice Chase. The Chief Justice, in his opinion delivered this morning, [illegible] the case briefly, as follows The petitioner in this case seeks relief from restraint and detention by Philemon Tharbleton, of Talbot county, Maryland, in alleged contravention of the Constitution and Laws of the United States The facts, as they appear from the returns made by Mr. Tharbleton, and by his verbal statement [illegible] and admitted as a part of the returns, are substantially as follows. The petitioner Elizabeth T[illegible] a person of color and her [illegible] were, prior to the [illegible] of the Maryland Constitution of 1864 slaves of the respondent. That the Constitution, which went into [illegible] Nov 1st 1864, prohibited slavery Almost immediately thereafter, many of the freed people of Talbot county were collected together under the same [illegible] the nature of which does not clearly appear The [illegible] were [illegible] ways to their last masters. [illegible] petitioner was apprenticed to Tharbleton by an [illegible] Nov. 3d, two days after the new Constitution went into operation

The Chief Justice [illegible] up the points in this case, as follows:

1 The [illegible] of the 13th amendment of the Constitution of the United States interdicts slavery, or involuntary servitude, except as a punishment for crime, and establishes freedom as the constitutional right of all persons in the United States.

2 Alleged apprenticeship, in the present case, is involuntary servitude within the meaning of the words in the amendment

3 If this were otherwise, the indenture set forth in either does not contain important provisions for the security and benefit of the [illegible], which are required by the laws of Maryland in indentures of white [illegible] and is, therefore, in contravention of the clause of the 1st section of the Civil Rights law, [illegible] April 9th 1866.

4. The law having been enacted under the [illegible] clause of the 13th amendment [illegible] of the first clause of the same amendment [illegible] to all conditions of people [illegible] whether original [illegible] the amendment.

The petitioner therefore, must be discharged from restraint by the [illegible]

OMAHA Oct 16 —The *Republican* says of the [illegible] election in Nebraska [illegible] every county in the [illegible], in which a party contest was [illegible] have gained handsomely Indeed, we have [illegible] from which returns have been received, but Sarpy, and even in that county the Republicans have elected their candidate for Clerk, while the average Democratic [illegible] on the [illegible] of the ticket has been cut down to 25. Nebraska will give to the Republican candidate for President in 1868, three [illegible] majority—and we firmly believe that every one of the thirty-six [illegible] of the State will be carried by the Republicans."

NEW YORK, Oct. 21 —The *World's* W[illegible] says I learn from an official source to day that the trial of Jeff Davis will certainly take place at the November term of the U S Court which meets at Richmond, and Chief Justice Chase will [illegible] to preside, but if the Supreme Court [illegible] (on both) sides have agreed to argue certain points which will be [illegible] Judge Underwood, and if [illegible] (though good lawyers say this cannot be done), carry them up by writ of error to the Supreme Court.

Gen Grant has [illegible] the trial of Capt. M[illegible] of the army, for the murder of Fred E. Schepard, near [illegible] Ala. Schepard was shot by [illegible] while [illegible] to him.

WASHINGTON, Oct 18.—Col Wood, chief of the secret service division of the Treasury Department, has had all his detectives at work in the [illegible] of the counterfeit 7-30 notes It is [illegible] ascertained that over 1,300 have been put upon the market, that the plates were not [illegible] but in this [illegible] It is further stated that Philadelphia has been the headquarters for printing them [illegible] is said to be in [illegible] According to the [illegible], one of the [illegible] had been [illegible] with his 7-30s, that he forgot his [illegible] and [illegible] putting [illegible] counterfeit $10 and $20 bank notes and upon the [illegible] one of the very men of whom Col. Wood was [illegible] He was identified as having [illegible] a Brooklyn [illegible] as one of a gang, and is now in prison [illegible] of Col Wood, who is now in New York.

Salmon for Market.

NEW YORK CITY, Oct. 10th, 1867.

The fisheries of our northwest coast are [illegible] by proper management soon to become a handsome source of revenue to that section. The salmon taken in the Oregon and Washington Territory waters are reputed to be the finest in the world, and we have long considered that nothing was of more importance than to know and practise the best method of curing or putting them up for the Eastern markets We have taken [illegible] pains to obtain information on this subject, and though we do not presume to offer anything new to many parties engaged in taking these salmon, still the fact that no party, as we can find, has ever sent to this market packages that met the popular demand, will, I trust, excuse the following suggestions: Salmon, for Eastern markets, should be of the first catch, dressed with care and put up *whole* in tierces, well packed, solid as possible, in Turk Island or Liverpool salt, or salt equally pure. All that have come to this market have been in half barrels, with heads and tails off and some with backbones out, and in some cases not well packed It is a serious mistake and a damage to all parties for any one to send a [illegible] quality, or put up carelessly for this market. When these tierces are packed and headed up they should be set on end and a small hole made in the head and corked tight, and every third day, or week at farthest, the cork should be taken out and a strong brine poured in till full, even if it does not require half a gill, and, this should be done when they arrive and until sale. They are sometimes set up in cellars, in pyramid style for this process, so that the heads can be got at. We would not advise that all be put up in tierces For variety, a small proportion of half barrels, as above stated, could be well disposed of through the country, as we have determined, but those put up whole constitute the entire city demand As smoked salmon seems now to be the popular style, and put up whole they can be taken from the pickle, freshened and smoked and made almost equal to the fresh smoked and bring a better price than in the pickle.

The subject of putting up fresh salmon in cans for this market, we have also had under consideration and we cannot see why this method may not prove a very profitable business and from what we are able to learn of the process we are confident it can be made a complete success

What Say the Figures?

As the rebels, Confederates and Copperheads have about taken leave of their senses in the efforts they have put forth to make an unusual noise over the result of the late elections, it is not to be wondered at that they have not the capacity to add numbers together correctly to the amount of a few hundreds. The pretentious young man who temporarily controls the columns of the *Herald*, takes particular pains to show that, like Cloten in *Cymbeline*, he

> "Cannot take two from twenty, for his heart,
> And leave eighteen."

Hence he makes the following statements:

Says the OREGONIAN—"Think of it. If the Democrats next year carry every State which they have carried now and add Ohio and Oregon to the number they will still fail to get a majority of the electoral votes of the States now represented in the Union." What is the use of this silly lying? Does not the OREGONIAN know that the States now represented in the Union cast 247 electoral votes? and that a majority of 247 is 124, and that the States which the Democrats have carried this year with Ohio and Oregon, cast 144 of these votes?"

Can this excellent young man "cipher?" Can he foot up a very small "sum" in simple addition? Just let him take his slate and set down the numbers as we tell them off and see what result they will give him. Here is a full list of the States which have given Democratic majorities during the year 1867, with the number of votes to which each is entitled in the electoral college:

Connecticut	6	Kentucky	11
California	5	Maryland	7
Delaware	3	New Jersey	7
Pennsylvania	26	New York	33
Total			98

Here are 98 votes. If the Democrats have carried any other States than those named, will the *Herald* indicate them? Add to the list Ohio with 21 votes and Oregon with 3 votes, and they would have 122 votes in the electoral college (counting only the States now represented) leaving the Republicans 125, or a majority of three. If it suited our style we might fitly retort upon the "organ" in its own language: "What is the use of its silly lying?"

But who believes that the Democrats will carry either Pennsylvania or Ohio in the Presidential election? In the former State they got only a few hundred majority in October as the result of a most tremendous effort on their part and the most careless apathy on the part of Republicans. The diminished aggregate vote in all the States that have voted this year shows that the Republicans can easily carry most if not all of them when they deem it worth their while to try. With Grant as our candidate, we shall recover every Eastern State which we have lost, [illegible] California and carry Oregon by a sweeping majority. Such majorities as Grant will get will revive in the minds of Copperheads and rebels recollections of Vicksburg and Appomattox. We warn the Oregon brigade to look out!

The Income Tax.

An important case is pending before the Courts of Illinois to test the constitutionality of the Income Tax Law, which, it is supposed, will go to the Supreme Court of the United States for ultimate decision. The property of W. M. Springer, of Springfield having been attached and sold by the United States revenue officers to satisfy the amount of income tax against him, he has brought suit to set aside the sale. The point that he makes is that "the tax so levied upon his income, gains and profits, is a direct tax, and as such it is levied in violation of the Constitution of the United States, and particularly in violation of the third paragraph of section two of article one, and of the fourth paragraph of the ninth section of said article; that taxes levied upon the income, gains and profits of individuals by the act of Congress, have never been apportioned among the several States included within the Union, according to their respective numbers, nor have they been levied in proportion to the census and enumeration of the inhabitants as required in the Constitution; and that the tax levied against him is illegal and void." [illegible] first case of the kind which has arisen in the country, and its [illegible] and the prospect that it will go to the Supreme Court of the United States for a final judgment, makes it a matter of considerable public interest.

The *Herald* says that "George Washington never was a member of, and never could have been induced to become a member of any secret political organization." Right here a question of veracity arises between Simple, son of a Senator, and Thomas Jefferson, father of Democracy. Jefferson denounced the Society of the Cincinnati, of which Washington was President, as a secret political organization, and he and his party fought against that Society as bitterly as the Copperheads now fight against the similar association of soldiers known as the "Grand Army of the Republic." It is true that the Society of the Cincinnati was not a political organization; but Jefferson and his party held that it was, and opposed it on that account. Neither is the Grand Army of the Republic a political organization, though the Copperheads treat it as such. That party has an old antipathy to loyal soldiers' societies. But while it opposes secret political organizations in general, it excepts from the number such organizations as the Sons of Liberty and kindred Democratic associations. The Democratic party had its origin in secret societies of the French Jacobinical order. Those societies were opposed by Washington and supported by Jefferson. Yet a party with such an origin and such a record, pretends a horror of secret political societies! What [illegible] hypocrisy.

Dakotah contains 153,935,050 square acres of land. The United States, exclusive of water surface, contains 1,923,301,632 square acres. Dakotah therefore monopolizes nearly one-twelfth of the Great Republic. In 1860 it contained 2,839 inhabitants. It probably contains 10,000 to-day, the vast majority of whom are in the southwestern corner bordering on Utah and Colorado. The western boundary of Nebraska and the eastern boundary of Montana, each touch the 27th meridian of longitude west of Washington, and the corners approach within 140 miles of each other, nearly dividing the immense Territory of Dakotah in two almost equal portions. A bill was at one time introduced in Congress to organize that portion of it lying west of the 27th meridian, into a territory entitled Wyoming, but never became a law. The people living in the southwest are again moving for the organization of a new Territory and from the apparent necessity of having a well organized government in that section to be penetrated by the U P R R, and attracting a large population to its rich mineral treasures, it will doubtless be established during the coming session.

In accepting the nomination from the Democratic party for the office of Governor of Massachusetts, John Quincy Adams acknowledged it as a "compliment to the name he inherits." Of course the vain coxcomb was beaten by an immense majority, the people of Massachusetts having too much sense to cast their votes for one whose only boast was that he stood the shadow of a mighty name. There is a popinjay in Oregon who is endeavoring to rise to distinction on the ground that his father was once a United States Senator. But so obscure a Senator was he that not one person in ten thousand throughout the country ever heard of him. If the people of Massachusetts care nothing for the late Democratic candidate for Governor of that State, notwithstanding his illustrious ancestry, the people of Oregon will be likely to care a good deal less for a vain upstart who comes here basing his claims to consideration on the fact that he is the son of a Senator of whom nobody ever heard.

FLORENCE, Nov. 8.—Garibaldi will be tried in this city.

PARIS, Nov. 8.—La Marmora had an audience with the Emperor and asked that the French troops be withdrawn from Rome.

The annual Yellow Book is read for publication. It shows that Bismarck long ago was warned of the plans of the insurgents under Garibaldi, and the action that France would be certain to take in the premises.

CHICAGO, Nov. 10.—Cable dispatches to date of 10th says that the King of Italy demands the recall of the French troops, and finally protests against the proposed conference, consisting of only the Catholic powers.

Garibaldi and his principal lieutenants will probably come to the United States. The trial of Garibaldi is postponed. It is considered doubtful whether any courts have jurisdiction in his case.

Popular tumults, incited by Mazzini, had broken out at Milan and other cities. They were promptly suppressed. General discontent prevails throughout Italy. A state of seige is threatened at every large town.

The French Government has asked the Papal authorities to release insurgent prisoners. The request is refused. The *Moniteur* admits that the French took part in the late battle. Their Chassepot rifled cannon decided the day against the Garibaldians. French loss was 30 killed and wounded; the Papal loss 12 killed and wounded, Garibaldian loss 600 killed and many wounded, and 230 prisoners. This great slaughter was caused by the Chassepot rifle.

France is seeking a loan of £28,000,000. It is represented that the Government desires it for peace uses.

The Porte has replied to the last note of the European powers. He declines to receive advice, and accepts the responsibility for the events which ensue.

LONDON, Nov. 10.—A great change is made in the Italian situation. No adjustment is affected. Great mistrust is felt in regard to relations of France and Italy. Advices regarded as reliable indicate that a rupture may occur at any moment.

An assembly or general conference of the great powers is uncertain. England, France and Austria will come to a common understanding upon the policy to be pursued relative to the Eastern question.

Dickens sailed for America on the 9th.

Bread riots had occurred in Devonshire, but were suppressed. The country is now quiet.

A terrible explosion occurred at Ferndale Colliery, near Glamorgan. 300 miners were at work and at last accounts 200 lives were lost.

Great efforts were being made to obtain the pardon of the Manchester convicts on the ground that their offence was political.

LATER.—The bread riots at Barnstable on the 5th exceed in ferocity and destructiveness the riots of Exeter. The mob plundered butcher and baker shops and set them on fire. The police and military were obliged to fire on the mob.

The Archbishop of Canterbury appointed J. Butler to succeed Bishop Colenso, of Natal. Butler declined.

The *Globe* contradicts the report that all the Danish West Indies will be sold to the United States. Only St Thomas will be purchased. Price $8,000,000 in gold.

Advices from Canton say the tea market is quiet. The total exports for the season were 7[illegible],000,000 pounds.

PARIS, Nov. 10.—Victor Emanuel has extended aid to the families of the Garibaldians killed and wounded in the late engagements.

OUR SAN FRANCISCO DISPATCH.

SAN FRANCISCO, Nov. 12.—The Supervisors last evening passed an amended resolution requesting the delegation to the next Legislature to procure the passage of an act authorizing the city to purchase the gas works as amended. The Board asks for the privilege of issuing the city's bonds bearing interest at seven per cent per annum and payable in 20 years, for a sum not exceeding the appraised value of the works of the San Francisco Gas Co., or for the purpose of erecting works. Pearson, Margary and others were granted the right to erect gas works and lay pipes, with the proviso giving the city the right of purchase. A resolution was also adopted requesting the San Francisco delegation to procure the passage of an act authorizing the expenditure of $10,000 each for the improvement of Union and Washington squares, $5,000 for Columbia square and $30,000 for Yerba Buena Park.

The contract for publishing delinquent taxes was awarded the *Examiner*.

The Nicaragua steamship Co will dispatch the steamship *Oregonian* for Panama on Monday the 25th inst to connect by way of the Isthmus road with the steamer *Nebraska* for New York. The steamers in the Nicaragua line will be kept on their regular trips as at present.

Nothing has thus far been heard of the steamer *California* which left this place 15 days ago for Portland Oregon. [illegible] on her account.

Joseph Lawrence, F. J. M[illegible]well and [illegible] Walsh were on trial on a charge of assault with intent to rob on [illegible] named Pierson some time since. They were acquitted to-day.

The owners of the Goodyear India rubber patent sue Meyers, Weil and Solomon A. Levy of this city for infringement of patent and ask that they be compelled to pay over all the profits that have accrued to them through said infringement.

In the U. S. District Court to-day, the title of the United States was confirmed to two leagues of land the Tamalpais in Marin county, the claim of Hilarta Ranch to the same being rejected.

A number of prominent capitalists including Messrs. Hayward, Ralston, McLane, Tevis and others have under consideration the establishment of a California Life Insurance Company. The idea is suggested by the fact that this business is now entirely in the hands of companies from abroad which are making a great profit from California.

Thos. Coleman one of the parties indicted for murder during the squatter row, was released upon a writ of habeas corpus to-day.

The Panama steamer *Montana* arrived about 3 P. M. to-day. Steamer *Sierra Nevada* from Portland arrived this morning. The steamer *Orizaba* from San Pedro at noon.

Wool—Nominal at 18@28c.

California wheat was quoted in Liverpool yesterday at 17s per cental, and advance of 1s 6d this quotation is doubted in some quarters and a decline in the New York wheat market seems to justify the entertainment of such a doubt.

THE WIRES BEING DOWN, we are left utterly in doubt whether the election in New York, Pennsylvania, and other States, have gone Republican or Democratic. It makes no difference, politically, how these States have gone, so long as our State is yet blessed with a Clothing House that the public can rely on, and always be suited with the best goods at the lowest prices, be it a fine Dress Suit, or a common Business Suit, a fine Silk Dress or a paper of Pins, which you wish to purchase, you will be treated equally as well, at KOHN & FISHEL'S, No. 91 Front street.

Buchtel's Photograph Gallery is the only establishment in Oregon that is thoroughly prepared to do *all the different styles* of work in the art. Photographs from card to life size. *The new cabinet cards*, &c, &c. Small pictures enlarged (retouched in India ink—painted in water-colors or oil by Mrs. S. J. Buchtel). Pictures that are *fading* can be reproduced in this way. All negatives taken in this gallery will be carefully preserved, and additional copies had. I have now on hand a very large collection of negatives, the names of which are recorded alphabetically in a book for that purpose that can be seen in the reception room.

[illegible] GETS A NOTICE.—The monthly report of the Department of Agriculture for August and September, gives Oregon [illegible] the first thing of the kind we have seen for several years. The statements on which [illegible] were probably communicated by Mr. David Newsom, formerly of Marion county. The report says: "A large oil mill is now under [illegible] acres of [illegible] to supply the oil mill with the seed. Poor as this season has been here, the flax crop is excellent. The price of the seed is $1 50 per bushel, in Salem. The oil is worth $1 67½ per gallon, retail rates. The great discoveries of minerals on our eastern borders are of national importance. The [illegible] of tin lately found on the Owyhee, in Oregon, is rich and the quantity may be estimated by millions of tons. Iron, lead, coal, salt silver, gold, cinnabar are to be found [illegible] of this coast [illegible] Oregon and Washington have a goodly share of this [illegible] approach to our [illegible] of the Union Pacific railroad gives new life and [illegible] to all [illegible] of persons here. The vast and un[illegible] of fir, spruce, cedar, and hemlock in Oregon [illegible] will soon [illegible] of use and value to [illegible] regions which are measurably destitute of [illegible]. Our coal mines are very extensive and of good [illegible] in Western Oregon. Sheep raising bids fair to [illegible] an important branch of agriculture on the western slope of this continent. Sheep are very healthy, and the wool is excellent. [illegible] of the South Downs and [illegible] sell at $1 10 per head in this county. Some six [illegible] factories are now in good running condition, or in [illegible]

PERSONAL.—We had the pleasure of a visit yesterday, from Mr. Chas Taylor, who has been absent in the States [illegible] He went on as a representative to the Grand Lodge, I. O. O. F., of the United States, from the Grand Lodge of Oregon. He represents the session which was held on the 18th of September, at New York, as having been a very important and interesting [illegible] in North America, [illegible] as to the Grand Lodge of the United States, was [illegible] since the organization of the Grand Lodge of the United States. It [illegible] of Odd Fellowship, that during the great [illegible] of the Grand Lodge were always [illegible] from nearly all of the States, North and [illegible] and that on no [illegible] was anything said or done by [illegible] from either section, to mar the [illegible] good feeling [illegible]. Mr. Taylor has promised us some statistics and other interesting information relating to the [illegible] as soon as he can find time to prepare them for use. He has returned with his family, and says that [illegible] to make this country his abiding [illegible] live in the States, if given three [illegible] with all their appurtenances.

A VERY SERIOUS ACCIDENT.—Mr. H. J. Fagan, a [illegible] employed in the Willamette Iron Works, met with a [illegible] and perhaps fatal [illegible], about four [illegible] yesterday afternoon. He was at work about the [illegible] the [illegible] valve from door at the front of the oven broke from the hoisting chain and came down upon [illegible] with terrible force. The door, [illegible] weighs from 1200 to 1500 pounds, fell upon the [illegible] compound, complicated comminuted fracture of the left thigh, and badly breaking [illegible] Drs. Hills and Chapman [illegible] immediately upon the man, but the injuries were [illegible] that there is scarcely a hope that he can [illegible] them. Should he live, amputation of the leg will [illegible] as the bone above the knee is literally crushed into minute pieces. Amputation will be [illegible] if it shall seem to be possible for him to live [illegible] any circumstances.

T.; Mrs. Jennie Woodruff, W. V. T.; Chas. H. Langee, W. S.; Miss Emma Noble, W. A. S.; H. A. Woodruff, W. F. S.; Mrs. Louisa Dodge, W. T.; [illegible] Cole, W. M.; Mrs. Addie G. Hacker, W. D. "CALIFORNIA" MAPLE TREES FOR CALIFORNIA.—We are [illegible] that an order for 10,000 young maple trees came by the last steamer to this city, from Petaluma, California. They are wanted for shade trees. As there are no "California" maples in California, they have sent up to the county of Oregon, California, for "California" [illegible] of Oregon growth. California being the biggest and [illegible] the most money, we will sell her the trees, with the understanding that they shall not be mentioned as anything else than California maples.

THE CASE OF KINGSTON.—The man Kingston, arrested here, and taken, last Saturday, to Washington county, on a charge of larceny of clothing, had an examination Monday [illegible] Justice C. A. Westfall. The decision was reserved till Tuesday. There are two other charges against Kingston, one, forgery of an order for the keys of the school [illegible]; the other for destruction of furniture of the [illegible] house, where he had been teaching. Both charges were to be tried yesterday, the defendant, demanding juries.

WILLAMETTE FREIGHTS.—Arrived per steamer *Alert* from Oregon City yesterday, 2,614 qr sks flour, 2 coops [illegible], 1 pkge blankets, 350 bags wheat, 2 hlf bbls dried [illegible], 3 boxes eggs and 3 hogs. On the day before the *Alert* brought down 9 bales woolen goods, 754 qr sks flour, 55 hlf bbls dried apples, 8 boxes hides, 120 sks feed, 74 boxes apples, 30 bbls beef, 1 cow and calf, 400 gunnies [illegible], 303 bags wheat, 1 pkge spokes, 3 wood axles, 1 keg butter, 25 sks fruit.

[illegible] FOR SAN FRANCISCO.—The following has collect[illegible] of freight taken by the *Sierra Nevada*, which sailed on the 5th inst. We obtained at the time, only a [illegible] list: 13,602 qr sks flour, 942 sks wheat, 344 sks middlings, 360 sks potatoes, 119 hf bbls dried apples, 963 boxes apples, 13 rolls leather, 15 boxes eggs, 6 coops fowls, 3 bbls oil, 3 sacks ale, 54 boxes, 12 bales, 5 trunks and 2 pkgs [illegible]. The treasure sent amounted to $176,-980. The passengers numbered 205.

FREIGHT FROM BELOW.—The steamer *Ranger* came up from the Columbia river last evening, with 325 gunnies [illegible] for Captain Holman, 43 do, for Williams & [illegible] 24 [illegible] onions, 2 oxen, 1 coop chickens, 400 ft lumber. She also brought 12 passengers from Monticello and way landings.

[illegible] Those who are in want of the latest and [illegible] will not fail to call on Barrett. He has a full supply. In the bundle furnished us we notice [illegible] and *Godey* for November.

TEMPERANCE LIBRARY ASSOCIATION.—A meeting of the Temperance Library Association will be held at the Court House this (Wednesday) evening, at 7 o'clock, for the purpose of electing officers and transacting other important business. A full attendance of members and others, who are in favor of the Association, is requested.

SPECIMEN FLOUR.—We noticed yesterday in the store of Messrs. Savier & Co., several gunnies of flour, two qr sks in each, done up very nicely and marked to two or three different addresses in Connecticut. They are to be forwarded by the next steamer to the Yankees of the nutmeg State, as specimens of Imperial flour.

FREIGHT PER STEAMER MONTANA.—The steamship *Montana* brought 550 tons of merchandise for Portland.

BARMAN'S new Fall and Winter styles of Clothing have just arrived by the *Montana*, and will be opened to-day. All who have been waiting for the latest and best styles, can get them by calling at Barman's, corner of Front and Morrison.

FIRST NATIONAL BANK OF PORTLAND.—This institution is said to be doing a healthy and safe business. Most people suppose it to be exclusively a greenback bank, but such is not the fact. It deals in both coin and currency, receives deposits of coin and pays interest in coin. It is, therefore, as convenient to do business with as any other.

NEW GROCERY AND PROVISION STORE.—Messrs. Northrup & Hibbard have established a new grocery and provision store, on the corner of Front and Yamhill streets. They are prepared to do a general commission business, in the way of selling or purchasing goods. Farmers who have produce to sell should give them a call.

AUCTION SALE TO-DAY.—Mr. A. B. Richardson, auctioneer, has an important sale to-day of groceries and general merchandise, at his rooms, corner Front and Oak streets.

OPPOSITION STEAMERS TO PANAMA.—Yesterday morning the advertisement of the North American Steamship Co.'s inauguration of an opposition line to New York, *via* Panama, appears in this paper. The splendid steamship *Oregonian* will sail from San Francisco on Monday, the 25th, connecting with the new steamship *Nebraska*, on the other side. It is probable that fare will now be materially reduced; so that almost anybody can afford to "go home."

GOOD FOR OREGON.—Another source of revenue to the State has been created. We notice several shipments of Henley's Royal Balsam to California, and as soon as the bottles can be manufactured a large order will be filled from New York. The curative properties of this medicine are appreciated abroad as well as at home. See the certificates of several prominent citizens of the State on fourth page.

DR. C. W. COOL
Has Returned to Portland, and
can be found at his residence on
Third St., bet. Alder and Washington.

Those who desire FIRST-CLASS DENTAL SERVICES might do well to give him a call. He is making a NEW AND IMPROVED VULCANITE PLATE; the nature of his improvement consists in lining the entire concave surface with fine gold; it makes the plate twice as strong and one-third times thinner than the common vulcanite plate. It also prevents the acids of the mouth from [illegible] the plate, and from turning it black, which is a [illegible] occurrence. One-half of the common vulcanite plates turn black after being in use a short time, particularly where tobacco is used for smoking. His new style of plate admits of a very fine finish on the concave or palate surface. His office is the only place where such work can be had. The improvement is his own invention, for which he has made application to the United States Patent Office for a patent. He has been making this style of work for the last two-and-a-half years, and has specimens of the work which can be seen at his residence and office on Third street. This work has given satisfaction in every case.

OFFICE AND RESIDENCE REMOVED TO THE Southwest corner of Front and Yamhill Streets, opposite E. J. Northrup & Co.'s Hardware Store.

Extracting Teeth by Dr. Richardson's apparatus, with Ether Spray, is local in its application, the tooth and surrounding parts only becoming insensible to pain. Those suffering from bad teeth can now have them removed free from pain and without the effects of inhaling chloroform, ether or nitrous oxyde (laughing gas).

N. B.—To strangers I would say, that a constantly increasing Dental Practice for the last five years in this city, will be a sufficient guarantee for them to receive a First-Class and Finished Piece of Work. Numerous testimonials to the same can be given at the office.

PERRY DAVIS' PAIN KILLER.
It is a real pleasure to us to speak favorably of this article, known almost universally to be a good and safe remedy for burns and other pains of the body. It is valuable not only for colds in the winter, but for various summer complaints, and should be in every family. The casualty which demands it may come unawares.—*Christian Advocate.*

PAIN KILLER, taken internally, should be adulterated with milk or water, and sweetened with sugar, if desired, or made into a syrup with molasses. For a Cough and Bronchitis, a few drops on sugar, eaten, will be more effective than anything else. For Sore Throat, gargle the throat with a mixture of Pain Killer and water and the relief is immediate and cure positive.

HOSTETTER'S
CELEBRATED STOMACH BITTERS!
A Pure and Powerful Tonic,
Corrective and Alterative, of wonderful efficacy in Diseases of the
STOMACH, LIVER AND BOWELS.
PROTECTIVE PROPERTIES.
Prevents Fever and Ague and Billious [illegible] Fevers; Fortifies the System against [illegible] and the evil effects of unwholesome water; Invigorates the organs of digestion and the bowels;
Steadies the Nerves and tends to Prolong Life.
REMEDIAL PROPERTIES.
Cures Dyspepsia, Liver Complaint, Sick and Nervous Headache, General Debility, Nervousness, Depression of Spirits, Constipation, Colic, Intermittent Fevers, Sea Sickness, Cramps and Spasms, and all complaints of either sex arising from Bodily Weakness, whether inherent in the system or
PRODUCED BY SPECIAL CAUSES.

NOTHING THAT IS NOT WHOLESOME, GENIAL, and restorative in its nature, enters into the composition of HOSTETTER'S STOMACH BITTERS. This popular preparation contains no mineral of any kind; no deadly botanical element, no fiery excitant; but is a combination of the extracts of rare balsamic herbs and plants, with the purest and mildest of all diffusive stimulants.

The weak stomach is rapidly invigorated, and the appetite restored by this Tonic, and hence it works wonders in cases of Dyspepsia, and in less confirmed forms of Indigestion. Acting as a gentle and painless aperient, as well as upon the liver, it also invariably relieves the Constipation superinduced by irregular action of the digestive and secretive organs.

Persons of feeble habit, liable to Nervous Attacks, Lowness of Spirits, and Fits of Languor, find prompt and permanent relief from the Bitters. The testimony on this point is conclusive, and from both sexes.

As a Genuine Tonic, HOSTETTER'S BITTERS produce effects which must be experienced or witnessed before they can be fully appreciated. In cases of Constitutional Weakness, Premature Decay, and Debility and Decrepitude arising from old age, it exercises the [illegible] influence. In the convalescent stages of all diseases it operates as a delightful invigorant. When the powers of nature are relaxed, it operates to re-enforce and re-establish them.

Last, but not least, it is the only safe stimulant, being manufactured from sound and innocuous materials, and entirely free from the acrid elements present more or less in all the ordinary tonics and stomachics of the day.

Evening Brings us Home

Upon the hills the wind is sharp and cold,
The sweet young grasses wither on the wold,
And we O Lord! have wandered from Thy fold,
But evening brings us home.

Among the mists we stumble, and the rocks
Where the brown lichen whitens, and the fox
Watches the straggler from the scattered flocks,
But evening brings us home.

The sharp thorns prick us and our tender feet
Are cut and bleeding, and the lambs repeat
Their pitiful complaints—O rest is sweet
When evening brings us home!

We have been wounded by the hunter's darts,
Our eyes are very heavy, and our hearts
Search for thy coming—when the light departs
And evening brings us home.

The darkness gathers. Through the gloom no star
Rises to guide us. We have wandered far
Without Thy lamp we know not where we are—
At evening bring us home.

The clouds are round us, and the snowdrifts thicken,
O Thou dear Shepherd leave us not to sicken
In the waste night—our tardy footsteps quicken—
At evening bring us home.

The Railroad.

MONMOUTH, Nov. 5th, 1867

EDITOR OREGONIAN

In recently making a business tour through Yamhill and Washington counties, I was agreeably surprised to find so much interest manifested in the railroad enterprise, and progress made by the Oregon Central Railroad Company in bringing the people to its support. I took some pains to look into the matter, and find that the subscription to the capital stock of the Company amounts already to over one hundred thousand dollars, available funds. I became satisfied that the enterprise will prove a success, when I found that the leading farmers of Washington county, after a full investigation of the Company's affairs and prospects, were subscribing in gold coin, in some instances to the amount of two thousand dollars, and all doing something. I felt assured that we could rely on this Company for a railroad. While I was in Hillsborough, one man subscribed $2,000 and two more $1,000 apiece, and others $500, coin—not stock for that amount. I could give names were it necessary. Large subscriptions are being made in "cross-ties," many by young men who intend to get out the "ties" during the winter. Large subscriptions are also made in land, and many donations of land. I would here remark that our farmers should remember that they had better donate one-half their land outright, than to have this enterprise fail now.

Just look what these upper counties have lost on the price of wheat alone for want of railroad transportation to Portland or California. The fact is, this valley is losing every year, on the price of transportation, enough to build one half the road through it.

Let me through your columns say to the farmers of Polk county, that the long talked of railroad is coming. It has now come in good earnest, by a Company that means "business" and not "bonds." The officers and directors of the "Oregon Central Railroad" are all farmers but two, and one of the two is the County Judge of Polk county, a man whom all know to be the true friend of the farmers in Polk county. These men who have quietly and patiently pioneered the way and fought our railroad battles against rival interests deserve our thanks for their patient courage and persevering energy, and we all ought to stand shoulder to shoulder with them, until we see the final reward of their labors—the iron horse careering his way from one end of the valley to the other.

I will only add, that the engineers of the company are hard at work, rain or shine, locating the road, and that it is intended to let some contracts on the line within sixty days. I am informed that the canvass for stock will commence in this county (Polk) within sixty days, and as one man cannot build a railroad, and as it takes "a long pull and a strong pull and a pull altogether" to build it, we had better help to the best of our ability. I could give many reasons why a railroad would benefit the people of this valley, but it is not necessary. I will here say that the increase in the valuation of property by reason of the road will more than repay us for any outlay that we can make, and in the increased facilities for transportation, we will be gainers any way. And here let me remark that should any County Court or Commissioners think proper to give aid to this enterprise in their official capacity, I think they would receive the hearty co-operation and sanction of the people of the counties through which the line passes. Yours truly,

W. WATERHOUSE.

BACHELOR'S PERILS.—Marriageable men are beginning to be wary. They are commencing to eschew the society of the virtuous fair, and, in too many instances, are betaking themselves to other society, equally fair, but from whose vocabulary the word virtue is altogether expunged. Or else, should their happiness absolutely depend upon their being allowed to mix in the society of ladies, they adopt a subterfuge now much in vogue among those who aspire for clerical dignities and for the affections of a maiden with a well lined purse.

Even if a man is allowed to visit in the guise of a friend, the chances are that he will eventually drift into matrimony. Supposing there to be several daughters in the family where he visits, he will look upon the number as his greatest safeguard. He may imagine that he will never attempt to single out one. The girls would of course lead him to believe that they looked upon him as a brother, and that papa and mamma looked upon him in the light of a son—not a son-in-law. The lucky bachelor would then be lulled to [illegible]. He would [illegible] unguarded in his [illegible], and would allow his feelings to lead him whither they listened; and, as a natural sequence, he would eventually single some one out from the flowers of woman-kind as being a little fairer, having a more charming manner, or for some way or other coming nearer his ideal of all that is excellent in woman. If a bachelor of middle age, he would most probably select the youngest of the family, cheating himself into the belief that he did so simply out of a sort of fatherly regard for her. He would christen her the "baby" of the house, though she might be a fine grown maid of 19 summers, and have the airs and [illegible] of a woman three times her age. He would more frequently address his conversation to her than to her sisters, but at the same time he would but rarely talk sweet speeches, talking more like a school-master than an admirer, that she might be instructed somewhat. He would prefer walking with her, that he might point out the beauties of nature or illustrate the harmonies of creation, and, in effect, he would not fail to show his preference, in spite of his awkward apologies and grotesque efforts at concealment.

The sisters would be careful not to slacken legitimate sport. They would maneuver so that the lovers, as they would jokingly call them, always sat next one another at the family board, that they were partners in all amusements, and that in party drives or walks they should either be left behind or be left in front. Of course, this style of proceeding would not fail to be observed. The lady friends of the family would call and congratulate mamma upon her having secured such a son-in-law. Mamma would feel in duty bound to tell her husband, and the husband would have no alternative than to inform his friend that, owing to the talk of the neighbors, he must either cease his visits altogether or conduct them on a different footing. The poor bachelor has but one course open to him, as a man of honor and a gentleman—he must as speedily as possible raise the baby of the family to the dignity of matron.—*The West End*

AFRAID TO LET THE PRESIDENT SPEAK.—A Washington dispatch of Oct. 10th says:

A Democratic evening paper yesterday announced, with a profusion of capital letters, that the Conservatives of this city, the true Union men, would serenade the President to-night, and an announcement to the same effect was made in an Administration paper this morning. The Democrats, however, are afraid to let the President show himself in a speech, and some shrewd managers from the North telegraphed here this morning protesting against any utterances by Johnson. There was some excitement among the faithful, but the final conclusion was to abandon the serenade, and it is therefore announced in the evening paper that the Conservatives, with that delicate regard for the feelings of their political opponents that has always characterised them, will not resort to any public manifestations of joy over their great popular triumph and the proposed serenade will be postponed to some future occasion, when no harsh construction can possibly be placed upon the demonstration. This curiously worded notice causes a great deal of amusement among Republicans. A small crowd gathered at the White House early in the evening, but finding there would be no serenade, they gazed longingly at the windows for a sight, and then went home.

A Washington telegram of Oct 8th. says: "Closed to-day for a monument of white marble, height 36 feet, including statue of Lincoln 8 feet high, of Italian marble. Over $7,000 have been collected for the purpose, almost entirely in Washington. The monument will be placed in front of the City Hall."

Pawnee-Killer's reply to Gen. Sherman was unique: "My Great Grandfather may have some mighty good notions in his head, I have some very good ones also."

HIRAM SMITH'S

Ophthalmic Panacea!

IN BRINGING THE ABOVE-NAMED NEW REMEDY to the notice of the Public, the Proprietor begs to state a few facts in relation to it, as follows:

It originated in Prussia, where the science of Medicine is so thoroughly taught and practised, but owing to the poverty of its discoverer its wonderful properties were not known beyond the limited circle of his acquaintance, in which, however, it proved itself absolutely infallible in eradicating disease from the eyes.

He immigrated to this country, bringing his discovery with him, but seems to have been indifferent to the propriety of giving it general and wide-spread circulation, and, as previously in his native country, seemed only desirous of using it among his friends and neighbors.

The present proprietor was one of those neighbors, and for many years was a witness to its wonderful efficacy, and, after ineffectual efforts to persuade the Inventor to more widely disseminate the knowledge of its virtues, finally became himself the possessor of the secret of its preparation.

And now, while he does not deny that he hopes and expects to make money by its sale, he must yet lay claim to a desire to benefit his fellows by presenting to them a remedy *which does and will cure where medical science* and all experience have failed.

He wishes it to be understood that it will cure *all* diseases of the eye, whether of recent or long standing; but its greatest power is exhibited when it is applied to old *Chronic Cases* of long standing, which have resisted every other attempt to cure them, and which have been given up as hopeless and past being cured or relieved.

He asks those afflicted in this way to give it a trial, and so confident is he of its success that he instructs all his agents TO REFUND THE MONEY IF IT FAILS TO CURE.

It has, within the past year, cured cases of GRANULATED LIDS, INFLAMMATION, &c., of FIVE, SIX, NINE, FIFTEEN and SEVENTEEN YEARS STANDING, evidence of which fact is furnished in the testimony of the following persons, living at and in the neighborhood of Harrisburg, Linn county:

ALEXANDER L. WALKER was cured of inflamed eyes, of nine years standing. Had been treated by eminent physicians during all that time without effect.

Mrs MONTGOMERY, of Harrisburg, had inflamed eyes for over two years. For one year they were so bad that she could not work. Was finally completely cured by the Ophthalmic Panacea.

E. B. MOORE, of the firm of Moore, Garst & Baber, of Harrisburg, had granulated lids for six years.

NATHANIEL BELL, of Clackamas county, had inflamed eyes a bad case for over fifteen years.

ROBERT RAMPEY and W. D. PORTER, of Harrisburg; JOHN M. HOLLOWAY, of Linn County, G. R. WARD, of Lane County, were all afflicted, more or less severely, with diseased eyes, and were cured by the Ophthalmic Panacea.

All the above named persons have given lengthy testimonials to the facts as above stated, which may be seen at the proprietor's office in Harrisburg.

COUGHS, COLDS,

Bronchitis,

WHOOPING COUGH,

AND

OF THE

THE ROYAL BALSAM!

HAS NOW BEEN BEFORE THE PUBLIC FOR A length of time, and wherever used is highly recommended, never failing in a single instance to give permanent relief when timely used; and we have never known a single case of dissatisfaction, but, on the contrary, all are delighted with it and speak in the highest terms of its magical effects. The astonishing efficacy of the ROYAL BALSAM, in curing the diseases for which it is recommended entitles it to the highest rank among the list of medicines, and no family can be without it after once trying it.

Read the following testimonials from some of the most prominent citizens of Oregon:

MIRACULOUS CURE.

DR HENLEY—Dear Sir: I feel it but a duty to inform you and the public what a miraculous effect your Royal Balsam had on my wife. She had been affected with a severe cough for several weeks, which had assumed a dangerous feature, for which many physicians have been trying without any material benefit, and all the remedies failed to give her any relief. Without relief was got I feared for the worst, in her present condition. The cough appeared to be worse at night, she could get no rest—when Mr. Randall, of this city, advised me to try your Royal Balsam; all other remedies having failed, I concluded to try it, and I purchased two bottles. Strange to say, by the time I gave her three spoonfuls of the Balsam she got relief, and slept, a thing she had not done for three nights previous. By the time she had taken one bottle the cough was checked. Its effect was truly miraculous, as the cure was effectual. hence, I have no hesitation in recommending the Royal Balsam to all who are afflicted, and it appears astonishing to me that medicine of such great merit, and I might say magical effect, is not more in use. My candid opinion is, if persons use it once, they never be without it in the house.

Vancouver, March 1, 1867. H. COCHRAN.

From Wm. Doty.

North Yamhill, July 15, 1867

DEAR DR. HENLEY—It is with sincere gratitude I undertake to write to you, what your Royal Balsam has done for me. For the last 12 years I have been afflicted with a severe cough and what also some of the physicians called the Bronchitis, and have spent a fortune to get cured, trying all the physicians and remedies I could get to no purpose. Through the influence of my neighbors (for you have a great name with them here,) I got a bottle of your Royal Balsam and finding that it relieved me considerable I sent for a half dozen more. And now after one month using it I am perfectly cured. I gained ten pounds within a month and feel quite a different man. I send you this for publication for the benefit of humanity, that through my experience others in affliction may be relieved as I have been. Yours truly,

WILLIAM DOTY.

From Sophia M. Holman.

DEAR DR HENLEY—It is my duty to inform you and the public, what a miraculous effect your Royal Balsam had on my children. Two of them had a very bad cough and cold, I got a bottle of the Royal Balsam, and gave them some at bedtime and some in the morning, and that was all that was needed to cure them. I was astonished at not hearing them cough again, but so it was. I find if you give it in larger doses it will make the children throw up in an instant, and I think every mother ought to have a bottle of your Royal Balsam in the house, in case a child should get the croup for which it is a sure remedy, as it acts like magic on children. What I have seen and heard from my neighbors about the Royal Balsam I would sooner depend on it than on any prescription from any physician. I have lost two children within the last year of the same disease, had I had at the time some of the Royal Balsam I am confident my dear ones would be alive now. I shall always recommend it to all my friends, for I consider it a blessing and Godsend to mankind.

Yours truly, SOPHIA M. HOLMAN.

From Drs. Bell & Parker.

We have sold a great deal of Medicine since we have been in business, and now have fifteen different kinds of Expectorants for sale. But Dr. Henley's Royal Balsam takes the palm from all. In fact, we sell six bottles of Royal Balsam to one of any other kind—and really it seems of no use to keep any other. During our experience we have never seen any medicine that gives the satisfaction the Royal Balsam does, as is proven by the results daily coming in from the country of old Chronic cases, when nothing else would remove the dreadful cough they had. I find it is good for Bronchitis and Asthma. We acknowledge it is a pleasure to sell medicine that gives such universal satisfaction.

BELL & PARKER,
Druggists, Oregon City

From W. F. Barber.

DR HENLEY—*Dear Sir*. I had the Asthma for the last four years, so bad that it came near choking me. I tried all the patent medicines recommended for the cure of Asthma without doing me the least good, till I was told to try some of your Royal Balsam, which on several afflicted with the same disease, has performed wonders. I am using it now for a week and strange to say I have not experienced anything since, and I really believe that I am perfectly cured, anyhow I shall never be without a bottle of the Royal Balsam in the house in case of a similar attack, and I have no hesitation in recommending it to all afflicted with the same disease.

I am Yours truly,
W F BARBER

From J. H. Morril.

DEAR DR. HENLEY—I think it but justice to you that these few lines should be made known to the public, for there is so much humbug going on in patent medicines and quack nostrums now-a-days that I had lost all faith in everything in the shape of medicine. I was affected with what is called Bronchitis for the last thirty years, I coughed and wheezed for an hour at a time, I tried some of the best physicians in the Atlantic States and on this coast, all to no purpose. I could get no relief, and I really thought there was no relief for me in the world. I was induced to try a bottle of your Royal Balsam and it had a most remarkable effect on me and before I had used up four bottles, the cough left me and I can talk as loud as anybody, my wife and neighbors don't know what to make of it. My opinion is that if they knew the value of the Royal Balsam there is not a family in the country that would be without it. I think there is not a better medicine in existence for Bronchitis or cough than the Royal Balsam, and I conscientiously recommend to all so afflicted to give it a fair trial.

I remain yours, truly,
J. H. MORRIL.

CARD.

DR BARLOW J SMITH'S WATER CURE AND Phrenological Institute, 627 Sacramento Street, San Francisco. This is the only Regular Water Cure in Francisco, where all curable diseases are treated without drugs. Dr Smith was the first to establish a water cure on this coast, based upon the theory and practice of the New York Hydropathic College.

We have a truly healthful boarding place for men, women and children, and our prices are moderate.

The Phrenological organs plainly indicate the diseases to which any person, male or female, is predisposed.

Put this card in your hat, and when you come to San Francisco, call on Dr. Smith. He will give you consultation and a phrenological examination in regard to health. It will cost you nothing and may save you months and years of ill health and "bad luck."

Dr Smith gives free lectures to gentlemen every Friday evening, on subjects pertaining to health, at his Phrenological Hall, 627 Sacramento Street.

RENNICK'S SITKA LINIMENT!

THE MOST REMARKABLE DISCOVERY EVER MADE!

Will Cure All Pains in a Few Minutes!

Read the Certificates!

SPRAINED WRIST CURED.

PORTLAND, August 10, 1867.

I was at Mr. Wegner's restaurant on Saturday, August 10th and seeing the magic effect of J. G. RENNICK'S SITKA LINIMENT, in his case, concluded to try it on my wrist which has been sprained for some time. I found relief inside FIVE MINUTES from its application, and it is now perfectly well. My wrist was so swelled I could not shut my fingers. I believe it will cure any pain in a short time. I will give any further particulars to whoever calls on me.

VINCENT McCULLOUGH,
Corner of Fifth and College streets.

Tumor Removed!

PORTLAND, August 10th, 1867.

"I HAVE USED RENNICK'S SITKA LINIMENT for pain and swelling of the gum and cheek. I had a large tumor forming on the gum which arose from killing the nerve in my tooth and caused me a dreadful pain which prevented me from sleep for several nights. I applied the Liniment, and to my surprise it removed the lump and eased the pain so that it is now as well as the other cheek. My cheek was fearfully swollen. This was done in the presence of two witnesses.

I. MITCHELL.

PORTLAND, August 12th, 1867

For five years I have suffered with a pain or weakness in my back, which at times was dreadful. I often thought I could not bear such torment. But I got a bottle of RENNICK'S SITKA LINIMENT, and with one rub it perfectly cured me. I can recommend it to any lady suffering from pains in any way, for I am convinced it will at once remove them. DORE COHN,
Corner of Fourth and Taylor streets.

Any person who does not believe this can call, and I will convince them.

Rheumatism Cured!

State of Oregon, County of Multnomah—ss.

I JEREMIAH BROCK, BEING DULY SWORN, SAY that I am fifty three years of age, that I reside in Yamhill County, State of Oregon. I came to Portland on business, on horseback, from my home this morning. When I left home I could scarcely walk or stand on my feet, from Rheumatism, which has afflicted me for the last eight years. I was standing in Wilson's stable, on First street, in this city, when I heard Mr. Rennick's offer to bet that he would take out the Rheumatism in any case in twenty minutes. Rennick offered to bet $100 that he could do it. I went to Mr. Rennick's house and he applied the Liniment to my leg, and in twenty minutes my leg felt sound and limber, and as well as ever. JEREMIAH BROCK.

Subscribed and sworn to before me this August 29th, 1867. O. P. MASON,
Notary Public for Multnomah County, Oregon.

NEW REMEDIES, NEW REMEDIES

Dr. Gibbon's Dispensary,

616 KEARNEY STREET, NEAR COMMERCIAL, San Francisco. Established in 1854, for the treatment of Sexual and Seminal Diseases, such as Gonorrhea, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, etc. Skin Diseases (of years standing) and Ulcerated Legs successfully treated.

Horrible Diseases.

How many thousands of persons, both male and female, are there who are suffering out a miserable existence from the effects of secret indulgences, or from virus absorbed into the system! Look at their pallid, emaciated and disfigured faces and their broken-down constitutions, disqualifying them for the happiness of marriage or the enjoyment of life. In this horrid situation thousands suffer until death closes the scene. Let parents, guardians, friends, attend to those who are suffering with any of these horrible life-destroying maladies. See that they are cared for and cured before it be too late. Send them immediately to Doctor Gibbon, a physician who has made private disease his especial study for years, and who is certain to cure the most inveterate cases without mercury or any injurious drugs. It is important to those who are afflicted, or to those who are interested in the welfare of their friends, to be careful of the many pretended doctors who infest all cities, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places. Be therefore careful and make strict inquiry, or you may fall into the hands of these charlatans.

Seminal Weakness.

Seminal Emissions, the consequence of self-abuse. This solitary vice, or depraved sexual indulgence, is practised by the youth of both sexes to an almost unlimited extent, producing, with unerring certainty, the following train of morbid symptoms, unless combatted by scientific medical measures, viz: Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, hectic flushes, pimples and various eruptions about the face, furred tongue, feted breath, coughs, consumption, night sweats, monomania and frequent insanity. If relief be not obtained, should apply immediately. Visit in person or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure. Dr. G. will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of this complaint by either of the San Francisco quacks.

MARRIED MEN,

Or those who contemplate marriage, who are suffering under any of these fearful maladies, should not forget the sacred responsibility resting upon them nor delay to obtain immediate relief.

TO THE LADIES.

The various complicated and distressing diseases incident to females, treated with eminent success. Such as Suppressions, Irregularities, Whites, Falling of the Womb, Tumors, all Urinary Diseases, Nervous Debility, Painful or Difficult Menstruation, Barrenness, etc., will be speedily cured, without poisonous drugs, injuries or unpalatable medicines of any kind. Have no delicacy in calling, no difference what your troubles may be. The afflicted are cordially invited to call and satisfy themselves.

Persons calling at Dr. Gibbon's office or sending for packages of medicines, may rely upon his assurances of confidential secrecy with implicit faith, and expect no more than to be charged with, a fair, and mutually satisfactory remuneration for services rendered, considering the circumstances and difficulties of cases, rather than a too prevalent and selfish practice of extortion among quacks and pretenders.

DOCTOR GIBBON is responsible, and will give to each patient a written instrument, binding himself to effect a radical and permanent cure, or make no charge.

CURED AT HOME.

Persons at a distance may be CURED AT HOME, by addressing a letter to Dr Gibbon, stating case, symptoms, length of time the disease has continued, and have medicines promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions for use, for Ten Dollars, sent in registered letter or through Wells, Fargo & Co.

Address DR. J. F. GIBBON, 616 Kearney street, corner Commercial, San Francisco. Post Office Box 282.

Consultations FREE.

Correspondents will please inform DR. GIBBON that they read his advertisement in the *Daily Oregonian*.
